# LUND

PONTOONS

**BUILT USING THE SAME STRINGENT  
CONSTRUCTION STANDARDS  
AS LUND FISHING BOATS,**

Lund Pontoons open up a world of on-water possibilities. Whether you're a fisherman, a watersports champion or someone who simply enjoys a relaxing day on the water with family and friends, Lund's lineup of beautifully designed and expertly crafted pontoons will answer the call every time.

- 3 CONSTRUCTION AND PERFORMANCE PACKAGES
- 4 CRUISE
- 6 WALK-THRU
- 8 WALK-THRU DUAL SEATING
- 10 FISH & CRUISE
- 12 FISH
- 14 FEATURES & OPTIONS

# CONSTRUCTED WITH EXTRA CONFIDENCE

Lund Pontoons benefit from superior engineering, design and craftsmanship, ensuring you're onboard a pontoon that's as easy on the eyes as it is to operate.

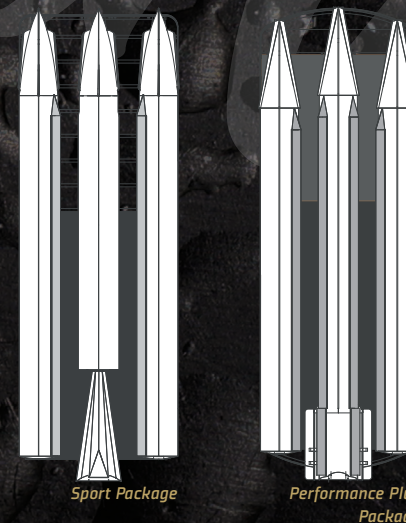

- 25-inch diameter tubes add strength and greater buoyancy. In the extremely rare event that a tube gets damaged, the tubes' baffled airtight chambers limit water intrusion to keep you safe and confidently afloat.
- Full-width cross members support decking from port to starboard, adding strength without adding weight. The rails are spaced closer together in key areas to provide extra support.
- A 2-step under-deck water prevention system uses butyl rubber tape between cross members and the deck, and a urethane sealant over all top seams and screws to minimize water intrusion.
- More than 100 custom tek-screws are set along both sides of every deck seam to ensure an extra-tight hold and to eliminate flex.
- Sound-dampening fence construction uses foam tape between the fence frame and panel, eliminating rattling for a quieter ride.
- Full fence panel height provides increased safety and protection for interior furniture. Kwik-clip covers allow for easy canvas installation.
- Rotocast seat bases feature built-in drainage to keep the interior dry.

## SPECIAL PACKAGES

Tailor your Lund Pontoon to your preferred on-water experience, thanks to several optional packages.

- **CONVENIENCE PACKAGE** features a quick-release fender system, stainless steel flip-up cleats, an upgraded steering wheel and portable cupholder.
- **LUXURY PACKAGE** features a Captain's Chair, a stitched-brow upgrade to the helm, stainless steel cupholders, LED rope lighting at the seating base, a black acrylic table and a stainless steel boarding ladder.
- **SPORT PACKAGE** promotes improved buoyancy, speed and maneuverability for epic watersports adventures, thanks to the addition of a lowered center tube that creates a V-hull feel, lifting strakes on the inside of outer tubes, a reinforced nose cone, a full skin kit and a full keel.
- **PERFORMANCE PLUS** offers increased buoyancy, greater control, and improved speed, maneuverability and fuel capacity for a smoother, performance-forward ride. The package includes a 25-inch full-length lowered center tube, lifting strakes on all tubes, a reinforced nose cone, a skin kit, a full keel, an optional in-floor locker and a 37-gallon fuel tank.

*Shown with optional black anodized fence and bimini rails.*

*Boats may show factory and/or dealer installed options. Please see dealer for details.*
