

LUNDO[®]

2019 LINEUP

ALUMINUM, FIBERGLASS, PONTON AND JON BOATS

Model year 2019 promises to be another great year at Lund and, as always, we're immensely appreciative of our loyal owners who make it all possible. Just as you inspire us, we hope our products inspire you to live your best life on the water.

To New Adventures

True to Lund's heritage, we continue to build the toughest and most versatile fishing boats on the market. Our fishing focus runs deep and the Lund team continues to innovate and create fishing layouts that improve fishability and performance. That said, we know that many of our owners desire watersports and other recreational activities as well. To better serve these loyal boaters, we've taken care to expand our portfolio in recent years. At Lund, we create the ultimate fishing boat, with added sporting features.

Nowhere is this more apparent than in the all-new Adventure series. This dynamic boat caters as much to committed anglers as it does to the family. You'll find a host of fishing amenities such as the center rod locker, large livewell, rear casting area and a spacious cockpit area for a full day of fishing. There's also an optional ski tow pylon, top hider, rear jump seats and abundant storage from bow to stern that make a day of recreation natural and easy. For those feeling extra ambitious, why not do both in one day? Read more about the new Adventure series on page 6 of the magazine and page 30 of the catalog.

Based on the success of our LX pontoon series, we developed our new ZX pontoon series. The ZX series comes in three configurations—Walk-Thru (WT), Walk-Thru Dual Seating (WTDS) and Fish & Cruise (LFC)—with innovative lounge seating across the board and a fishing station and rod locker for the LFC model. A host of optional packages make this pontoon a versatile performer. Choose from the three-tube performance package, luxury package, lighting package, fishing package and more. Discover the ZX Series on page 50 of the catalog.

We're also thrilled to place the spotlight this issue on a handful of our women anglers who are contributing exceptional things to fishing and this profession. On page 8 of the magazine you'll meet Nancy Koep, a bait-and-tackle store owner; Brenda Picht and Katie Hansen, Lund Pro Staff members; and Mandy Uhrich of the Minnesota DNR. These incredible women tell us about themselves, their careers and what makes the sport of fishing so special.

Model year 2019 promises to be another great year at Lund and, as always, we're immensely appreciative of our loyal owners who make it all possible. Just as you inspire us, we hope our products inspire you to live your best life on the water.

And when you're not on the water, we invite you to stay connected with Lund by following us on YouTube, Facebook and Instagram.

Ultimate Fishing Camp returns, winterize your Lund, a super-fast reel and more.

06 Legendary Lund

The all-new Adventure series brings versatility to the water for anglers who also enjoy cruising with the family.

FIRST CAST

Gear, news and ideas to deliver the ultimate fishing experience.

LUND

Ultimate Success

With every year, the Ultimate Fishing Camp only gets better. The third-annual event, put on by Lund Boats, Leisure Outdoor Adventures and Chase on the Lake Resort, took place June 24-28, 2018, on the shores of Leech Lake in Walker, Minnesota. Registration for the popular camp filled up within three-and-a-half weeks, and 20 participants from all over the Midwest came to Leech Lake for three days of on-water seminars and practice with Lund Pro Staff members. The seminars covered trolling set-ups and techniques, use of reaction-style baits for walleyes, tips for musky and pike fishing, as well as an array of topics based on participants' questions and needs. Evening sessions covered electronics, knot tying, use of new lures and baits, and how to tie spinner rigs. The pro instruction paid off in a big way, with participants catching many walleye and bass. Ward Simon of Stillwater, Minnesota, recorded the biggest catch of the weekend, hauling in a 47-inch musky. When not learning or fishing, participants enjoyed socializing over delicious meals, including a shore lunch fish fry that capped off the event.

"You really can't beat an event that features exceptional food, lodging and learning from the best," says Jason Freed of Leisure Outdoor Adventures. "This event brings like-minded fishermen together for a few days of doing what they love and improving their skillset."

Visit leisureoutdooradventures.com/ultimatefishingcamp2017 to learn more. The Ultimate Fishing Camp 2019 will take place June 23-26.

Winterizing FOR THE WIN

As you prepare to bundle up for the winter months, make sure your Lund's gasoline is just as well protected. ValvTect X-Tended Protection + Gasoline Treatment (XP+), a multi-functional, premium-grade gasoline treatment, keeps gasoline in prime condition until the first thaw and beyond, thanks to refinery chemicals specially formulated to improve gasoline performance in marine engines. Whether your gasoline contains ethanol (E10) or not (E0), is used every day or occasionally, or is in storage for a year or longer, XP+ ensures your engine is ready to start. XP+ contains ValvTect's stabilizer, combined with proprietary corrosion inhibitor to stop any corrosion possibilities, water dispersant to remove controlled amounts of water, and a combination of specially developed gasoline detergents to help clean up carbon deposits and prevent octane loss.

"XP+ helps your engine work at its best performance level, preventing gasoline from breaking down and 'aging,' which causes hard starting and increased maintenance costs," says Marvin Griffin, president of ValvTect Petroleum Products. "You'll be ready to focus on the fish at the first moment of spring launch." Available at marinas and marine dealers nationwide. Visit valvtect.com.

REEL FAST

Lund owners expect the absolute best when it comes to fishing products and gear, and Abu Garcia®'s Revo® Rocket fishing reel lives up to this extremely high standard. The Revo Rocket features an industry-leading 10.1:1 rocket gear ratio, delivering 41 inches of line per turn. This unheard-of speed gives anglers all the power and control they need to win their next battle. "I'm able to reel my bait back to me with 2-to-3 turns of the handle," says Hunter Shryock, an Abu Garcia pro. "Throughout the day, I'm going to be presenting the bait to more fish. This 10.1:1 is a game-changer." In addition to breakneck speed, the Revo Rocket features oversized EVA handle knobs, 10 stainless steel HPCR bearings and an Abu Garcia Infini™ brake system. Visit abugarcia.com to learn more about the Revo Rocket.

GEAR UP

Stock up on Lund gear so you're ready for the cooler temperatures of fall and stocked up for next fishing season. Dozens of new shirts, hats, sweatshirts, accessories and more proudly display the Lund name while keeping you comfortable on the water. The blue fleece sweatshirt is ideal for brisk fall evenings and chilly mornings. On sunny days, opt for any of Lund's hats, including the Contrast Bill Hat in maroon, new for 2019.

RIGHT COVERAGE

Fishing outings aren't always as simple as hopping onboard your boat with a rod in hand. Boater's Choice understands this, offering comprehensive coverage for all the things you need to reel in your next catch: your beloved Lund, fishing rods, tackle, fishfinders, gear and other technology. Find the right plan for your needs, such as one that pays the agreed value on total loss with no depreciation and a separate deductible for onboard electronics. Then get out on the water and savor the simple solitude with complete assurance that you're protected when you need it. Boater's Choice representatives are available to assist you 24/7. Get a no-obligation quote today by visiting boaterschoiceinsurance.com.

Choose Your Own Adventure

The all-new Adventure series is equally equipped for a full day of fishing and a full day of recreation

ADVENTURE MEANS SOMETHING DIFFERENT TO EVERYONE. For some, it's heading into uncharted territory, braving inclement weather and rough chop to pursue the fish. For others, it's getting the whole family together on the water and seeing how the day unfolds. No matter what adventure looks like in the details, however, it always involves thrill, excitement and memories. The all-new Adventure series from Lund pays tribute to that spirit, with built-in versatility and reliability that makes any item on the agenda possible.

"The Adventure series puts versatility front and center," says Rory Wiebe, product manager for Lund. "No matter the species you choose to pursue, who you choose to bring with you on the water or how you choose to spend your time, the Adventure makes it happen, all with Lund's trademark durability."

The Adventure comes in two sizes—1675 and 1775—with Tiller, Side Console (SS) and Sport (full windshield) layouts on the 1675, and side console and sport layouts on the 1775. Each version features a deep-V hull and a spacious layout with room for the whole family. The 1675 Tiller comes with two swivel chairs, and the SS and Sport come with two swivel chairs and two aft jump seats. On the larger 1775 size, the SS and Sport feature two swivel chairs and two aft jump seats.

Every size and configuration makes storage a priority, with compartments lining the boat from bow to stern. This includes massive in-floor bow storage, bulkhead storage, and port and starboard compartments. With fishing at its core, the Adventure comes outfitted with the amenities to make catching and keeping fish effortless. A center rod locker holds an impressive five rods up to 7 feet, and five more up to 7 feet, 5 inches. The Tiller command console also features tucked-away tackle and tool storage. A large aft livewell is positioned in the aft deck of all model configurations. The Tiller version is 16 gallons and 37 inches and includes a baitwell; the Sport and SS version is 23 gallons and 37 inches.

Beyond the serious fishing features, the Adventure series caters to other activities, as well. An integrated boarding ladder makes entry and exit from the water a breeze, and LED lighting in the bow and cockpit add on-water ambiance when the sun begins to set. Opt for a ski pylon on the SS and Sport versions for watersports fun, and choose the optional bow cushions on the Sport for additional lounge versatility. The starboard console on the SS and Sport versions makes navigating easy and enjoyable, with tach and gauges and a switch panel within easy reach.

"Anglers can take the Adventure out for a long day of fishing, followed by cruising or water-skiing with the family the next day," Rory says. "Or you can do it all in one day! Versatility is so important to fishermen and families, and this boat delivers it with confidence."

The Adventure features standard colors of Red, White, Black and Blue, and an optional Grey. The 1675 Tiller has a max horsepower rating of 60, while the SS and Sport are at 90. The 1775 SS has a max horsepower rating of 90, and the Sport is at 115. 

To learn more about the all-new Adventure series, turn to page 30 of the catalog.

The Adventure series comes in two sizes and two configurations, with a variety of fishing amenities and recreation options, so you can choose how you spend your day on the water.

LUND

FIELD NOTES

— FROM LUND'S —

FEMALE PRO STAFF

These outdoorswomen know their stuff, and they want other gals to get in on the game.

— ★ —
BY JENNIFER CHESAK

At an early age, somewhere deep in Lund country, these four women held a fishing rod in hand, and their lives changed forever. Now their collective mission is to inspire and empower other women to enjoy the fishing lifestyle to its full extent.

MANDY UHRICH

"I have always been little in stature," says Mandy Uhrich, a Lund Pro Staff member sponsored by Staples Sports in Lincoln, Minnesota. "Maybe I can't stand eye to eye with everyone, but I can sure fish with them. I want every child and woman to find their inner power."

Mandy lives in Brainerd, Minnesota, and fishes out of a Lund 2075 Pro-V Bass XS and also an 1875 Pro-V Bass. She was raised in Grand Forks, North Dakota, but grew her fishing expertise in the family Lund on the big waters of Devils Lake with her father. He passed away last year, and she credits him with helping her hone her passion. "My dad taught me that if people had a vested interest in anything to do with the outdoors they were more likely to care and preserve that resource for their families and future generations," she says.

In addition to being an avid angler (and hunter), Mandy is the habitat program administrator for fish and wildlife at Minnesota's Department of Natural Resources. As an angling aficionado, she's also featured on multiple fishing TV and radio shows, including the Brainerd Outdoor Radio Show on KBLB. And she co-hosts Lakeland Fishing Tips with Ray Gildow on Lakeland PBS.

Mandy is a prolific fishing educator, conducting seminars locally and abroad. And one of the roles she is most proud of is that of volunteer instructor for Becoming an Outdoor Woman. For BOW, she teaches girls and women of all ages the basics of tackle and tactics. "I will continue until my very last day and my last cast in life to introduce women to fishing," Mandy says, and she's glad to have Lund Boats in her corner. "Lund backs me in my pursuit to recruit, retain and empower women and children in the sport of fishing and in the outdoors through multiple platforms."

Mandy says there is no gender gap in fishing. And she's living, breathing, fishing proof of that. She fishes an average of 30 tournaments a year and has nabbed 31 wins and 75 top-five finishes over the last eight years.

She tells the story of fishing a tournament on a day that was also busy for recreational boaters. "As a boat passed me going the other direction," she recalls, "the guy yelled at me, 'Boy your husband

must really love and trust you to let you take his boat.' I replied, 'This is my boat, and I am not married!' The pontoon full of young gentlemen directly in front of me immediately exploded with the guys standing up and shouting to me, 'Marry me, marry me!'"

Those fellas didn't even know the best part: Mandy fishes out of a boat that came to fruition with her help. "I can honestly say my greatest honor was being able to provide input on the Pro-V Bass boat," she explains.

NANCY KOEP

"When you catch your fish, big or small, it's the satisfaction of being able to do it yourself," says Nancy Koep, a Lund Pro Staff member sponsored by Ray's Sport & Marine in Alexandria, Minnesota. "It gives you a great feeling of independence."

Nancy is the manager of Koep's Glenwood Corner, a convenience store that's also a bait-and-tackle shop and deli in Glenwood, Minnesota. Her parents opened the store after selling Koep's Clitherall Corner in Clitherall, Minnesota, and co-owning Urbank Bait Company with Nancy's grandfather and uncles. In addition to being in the bait business, Nancy's parents once owned Spitzer Lake Resort, where Nancy said her love for fishing was born. Once she finished her chores on the property, she was allowed to take a boat out and catch bullheads.

She's been schooled in the intricacies of bait and tackle all her life. "I started working there when I was 13 years old, stocking coolers, boxing leeches, scooping minnows, marking tackle and running the tills," she says of the Clitherall shop.

Now, after managing the Glenwood store for

20 years, Nancy still loves what she does. “The customers are what make my business so fun,” she says. “Not many people get to talk fishing all day at work.” Plus, she loves to see the stunned expressions on people’s faces when they suddenly recognize her fishing celeb status. “Many guys will walk in, look at me, look again, then finally ask, ‘Are you the girl on the Fish Addictions TV show?’” she says.

As a bait-and-tackle guru, one of the many things Nancy likes about her Lund 1875 Pro-V is its ability to hold whatever gear she wants. “I love all the storage my Lund Boat gives me: three big compartments on the bow, side compartments, plus drawers underneath both consoles.”

For anyone looking to get into the sport, Nancy has some practical advice: “It’s important to know you don’t need the most expensive boat or 50 tackle boxes to catch fish. Start with your basics and work up from there. If you don’t have a boat and can’t afford one, fishing from shore can be very rewarding.”

Nancy enjoys passing along her expertise, especially to veterans, kids and women, through guiding services. “Enjoying conversation and listening to their life stories are memories I will never forget,” she says. “Many have touched my life in so many ways.”

“Lund backs me in my pursuit to recruit, retain and empower women and children in the sport of fishing through multiple platforms.” — Mandy Ulrich

(Opposite page) Mandy and Nancy show off their catches (This page) Mandy takes the helm of her Lund 2075 Pro-V Bass XS

“I believe every tournament is a win when you learn something new. Each new day that I am on the water, I strive to learn something.” — Brenda Picht

BRENDA PICTH

“Lund Pro Staff was something I wanted to be since I first learned what it represented,” says Brenda Picht, who is sponsored by Ray’s Sport & Marine in Grand Rapids, Minnesota. “I wanted to be an influencer in this big world of fishing and hoped that I could encourage other women to reach further as well.”

Brenda, who works as the account manager at Arrowhead Promotions & Fulfillment, grew up fishing and camping her way through the Land of 10,000 Lakes. Now she carries on the same adventures with her husband. “Every weekend we are either taking friends and family fishing, pre-fishing, participating in a tournament or captaining for a high school team for one of their tournaments,” she says.

Brenda has been competing in tournaments for about 20 years, with 10 of those years spent on a team with her husband. Currently, they fish out of a Lund 2025 Impact XS. “They just become a part of your family,” she says of the Lund boats she’s owned over the years. “And you feel sad when you sell one and move on to the next. We still have the next owners as friends now, and that just goes to show how Lund Boats keeps adding to the family!”

So far, the highlight of Brenda’s tournament career has been fishing the Cabela’s Masters Walleye Circuit World Walleye Championship in 2017. But for her, any moment fishing is one to cherish. “I believe every tournament is a win when you learn something new,” she says. “Each new day that I am on the water, I strive to learn something, whether it be a new area or new technique or manipulating an old one to make it work that day.”

One of the most important fishing skills Brenda encourages everyone to learn is how to trailer the boat, launch it and drive it solo. “The world is wide open once you master these, and it makes you feel very accomplished,” she says. “Our culture has always been that the men do these things. Not in my world! This is a family sport, and we all are equally capable of accomplishing these tasks.”

KATIE HANSEN

“When I was a kid, I did not even know the word ‘boat’ existed,” says Katie Hansen, a Lund Pro Staff member, sponsored by Dave’s Marine in Webster, South Dakota. “I would always see a boat and say ‘Lund.’”

That’s because Katie’s father guided out of a Lund, and her grandfather owned one, too. She just didn’t know anything else. Now that she’s a boat owner herself, she’s stuck with the brand—but not just for the sake of tradition. “Lund boats are designed with anglers in mind,” Katie says. “They’re not just thrown together on an assembly line. Each one is made painstakingly with love to get it perfect.”

Katie grew up on Alexandria’s Lake Le Homme Dieu and remembers collecting her own worms for fishing off the dock. And while other kids reserved their autograph books for musicians, Katie took hers to the bait shop, hoping for a chance to meet greats like the Lindner brothers. Back then Harry Bemo was her neighbor, and LeRoy Ras was a friend of her dad. Both men are Minnesota fishing hall-of-famers today, and Katie says she grew up with “fishing royalty” in her backyard.

Katie lives in Watertown, South Dakota, where she works as a radio host for KXLG. She’s on the air Monday through Friday, and then on Saturdays she hosts Fishing Tips & Techniques, in which she interviews expert anglers and fishing celebrities. Her vast knowledge of the sport and her experience fishing out of a Lund 189 Pro-V GL all over the Dakotas and Minnesota has led to other fishing show hosts inviting her for guest appearances.

Although serious about the sport, Katie says catching fish is the bonus of any day on the boat. Sometimes, she says, fishing is simply a great way to spend time with the ones you love—adding in a dose of friendly competition, of course. She, her sister and her niece often create a DIY three-day tournament in which they fish multiple lakes. What strikes her is that she rarely sees other women out enjoying such camaraderie with one another on the lake, and she doesn’t want them to miss out. She hopes for that to be the norm someday. “Women need to have their own fishing trip,” she says. “Just go have fun.”

(From top to bottom) Brenda Picht lands a sizable walleye; Katie Hansen shows granddaughter Freida the ways of an angler; Katie shows off her catch.

2019

ALUMINUM, FIBERGLASS, PONTOON AND JON BOATS CATALOG

LUNDO

FISHING AT ITS FINEST.

Before our boats leave the factory, before they ever touch water, we mark them with Lund's name across the side. For us, the mark isn't a matter of decoration. It's a symbol that recognizes a heritage of superior construction and unbeatable performance. Because from a distance, you might not be able to distinguish the IPS™ hull or the power strake design, but you can see four letters across the side—four letters that represent 70 years of quality craftsmanship by fishermen, for fishermen.

The next time you're in a secluded cove with a line in the water, look at that mark on the side of your boat and know you're not just in a fishing boat. You're in a Lund.

LUND

Two Hulls, One Tradition

Lund's hulls are made from fiberglass and aluminum—two very different materials. But our hulls aren't defined by raw material. They're defined by tradition, quality craftsmanship and meticulous standards. Because how the boat is made is just as important as what it's made from.

Both our aluminum and fiberglass hulls are derived from the same innovative design—Lund's IPS™, IPS™ 2 and IPS™ 3 (Integrated Power Strake) technology. We've developed a construction process that incorporates the same industry-leading design into every hull that comes off the line.

Our aluminum and fiberglass hulls expand your possibilities and offer a customizable experience. We take pride knowing that whatever material you choose—whether it's the smooth and sleek fiberglass or rugged aluminum—you're still in a Lund.

FIBERGLASS

The smooth finish and sleek coloration on Lund's fiberglass boats come from precision molds developed at Lund. But beyond the distinctive fiberglass look, the molds also serve to ensure consistency in performance and durability in every fiberglass hull that comes off the line. True straightness within the composite fiberglass structure is guaranteed because the molds themselves have been optimized from the outset.

ALUMINUM

Lund's aluminum hulls aren't just built to perform at the highest level. They are built to maintain that unmatched handling through years of hard use. That starts by using the most durable raw aluminum in the industry. From there, our employees use cutting-edge shaping techniques to hand-piece together the IPS™ and IPS™2 hulls on every Lund (excluding the Predator). A boat may look similar in the showroom, but it's what is under the floor that makes a Lund stand apart.

Captain's Comforts

- 1. TYEE/TYEE MAGNUM/BARON: COMMAND CONSOLE** Tye, Tye Magnum and Baron series will amaze anglers with a fantastic set of features—for both fishing and comfort. The command console offers distinct style and an ergonomic layout where everything is closer at hand.
- 2. ADVENTURE: HELM** Anglers have everything at their disposal when at the helm of the 1775/1675 Adventure. For starters, clear, easy-to-read gauges make it effortless to check fuel, tach and speed while underway. Helm toggles are right within reach, as is a spacious and protective phone holder.

Smooth Operator

Sometimes you're only as good as the boat you fish in. If you can't maintain your position while fishing, your chances for hooking that fish of a lifetime decrease significantly. Thankfully, Lund boats have been meticulously engineered and constructed to deliver unmatched control that allows you to outperform the competition every time.

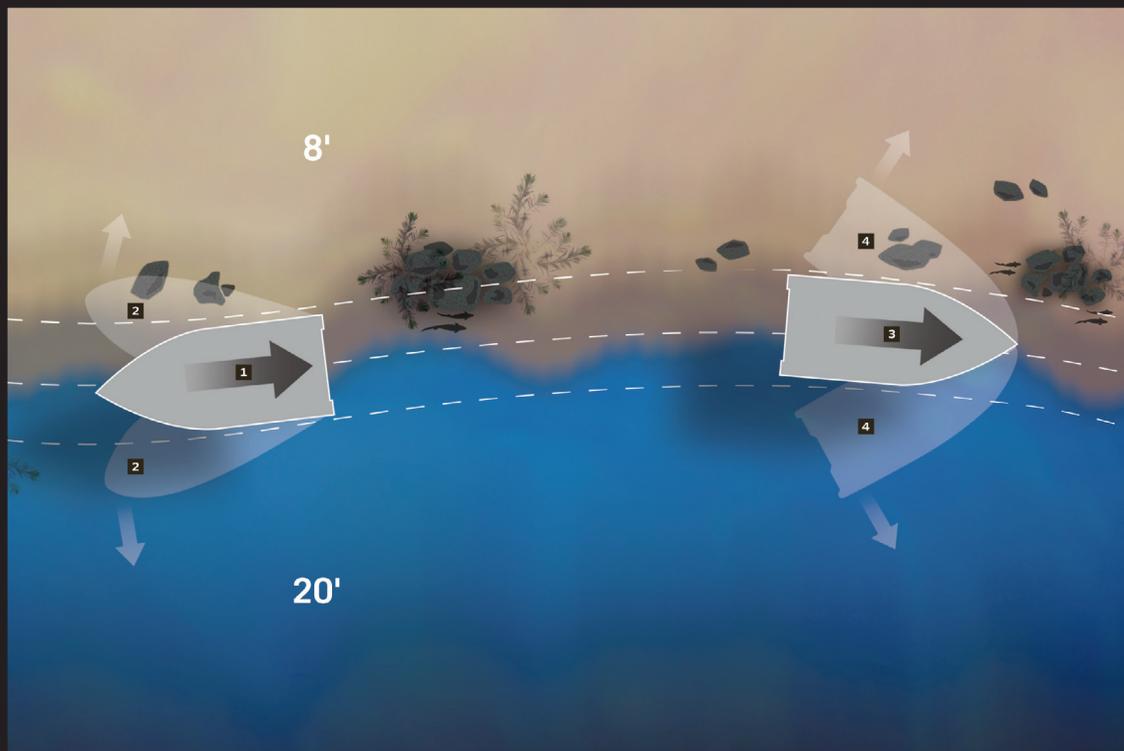

At the core of it all is Lund's exclusive **IPS™ (Integrated Power Strake)**, **IPS™2** and **IPS™3** hull designs. The IPS system utilizes a pronounced **center keel** that helps maintain ultimate boat control. At the back of the hull, water hits a **flat pad**, which greatly reduces churn. The non-turbulent water creates less motor strain and, ultimately, delivers better performance.

Wide **reverse chines** allow for precise cornering maneuvers and overall better control. They allow the boat to get on plane quicker and improve holeshoot, as well. Finally, a **wider foot-print** enhances onboard stability.

IPS integrates all of these features into a cohesive system that provides anglers with better backtrolling, superior drift control and more precise boat positioning. Simply put, Lund boats deliver a better, faster, higher, smoother and drier ride.

1875 Pro-V Bass shown

1 Lund Boats track like a train on rails, when trolling forward or backward, to maintain your desired position at any time. **2** Additional strakes on the IPS™2 hull provide more control to enhance tracking ability and give you the competitive advantage. **3** Reverse chines add an additional dimension to boat control. They not only provide added stability, but also additional edges to cut water and stay on top of the fish. **4** Lund's pronounced center keel works to eliminate cross drift, making it easy to stay in complete control and reduce battery and human fatigue.

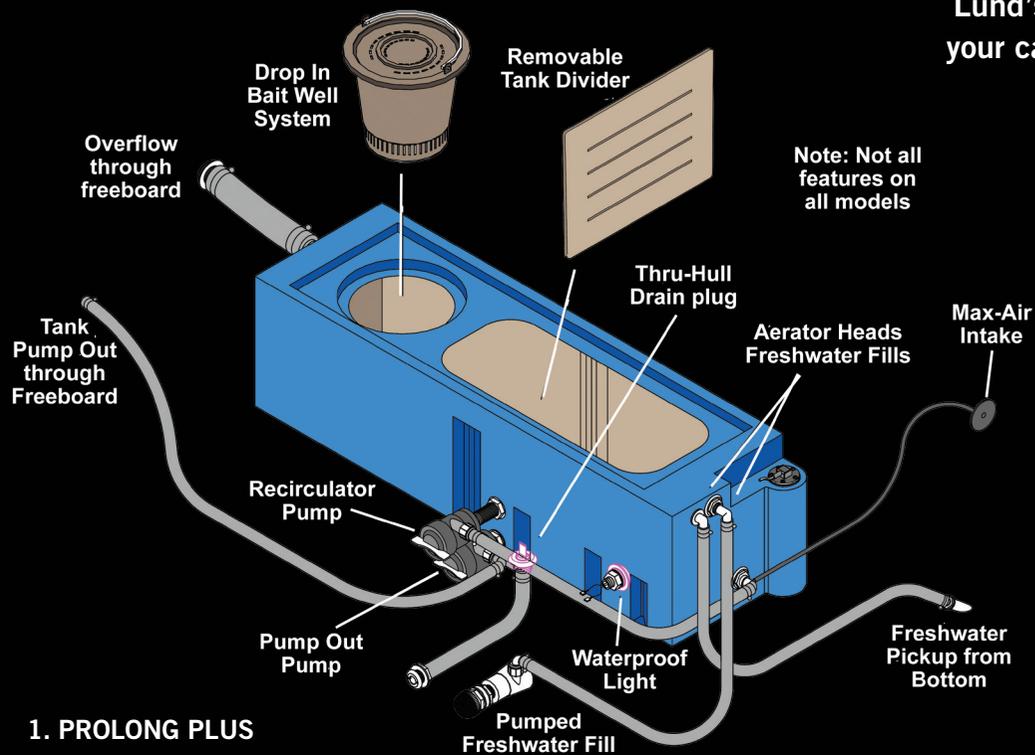

Superior Flotation

Lund engineers strive to design hulls that can endure the most extreme conditions. One of those extremes? A hull riddled with dozens of gaping holes—66 to be exact. The engineers gouged into the aluminum around the entire frame of their “holey” boat and launched it onto the water. The boat not only stayed afloat, it maintained stability and performance at high speeds when on plane, allowing the engineers to safely return to land with little more than damp shoes.

The secret to Lund’s superior flotation, even when taking on water, is strategically injected foam that meets and exceeds Coast Guard regulations. The buoyant material lining the inside of the hull ensures superior stability and flotation under extreme stress. For more information on Lund’s flotation compliance process and to see videos of the “holey” boat, visit www.lundboats.com.

A Job Well Done

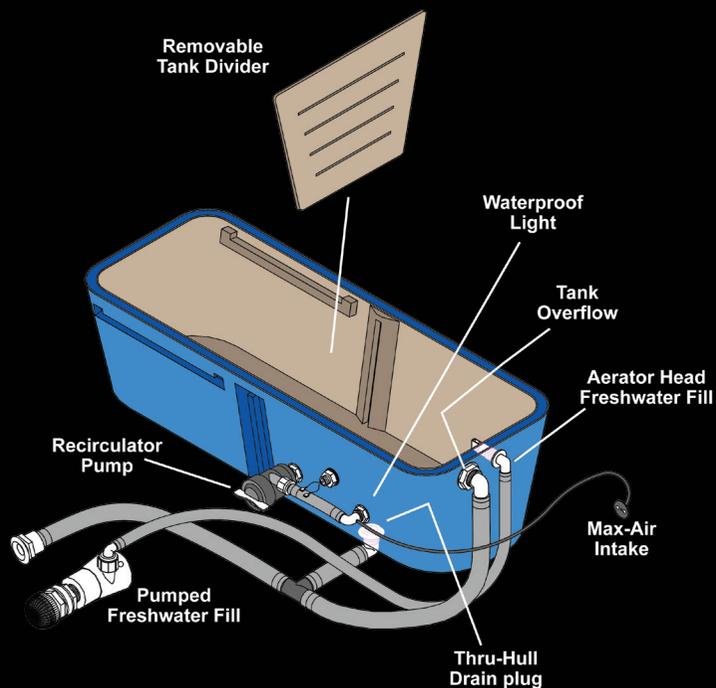

1. PROLONG PLUS

Lund's pioneering work with livewells keeps your catch healthier and less prone to stress

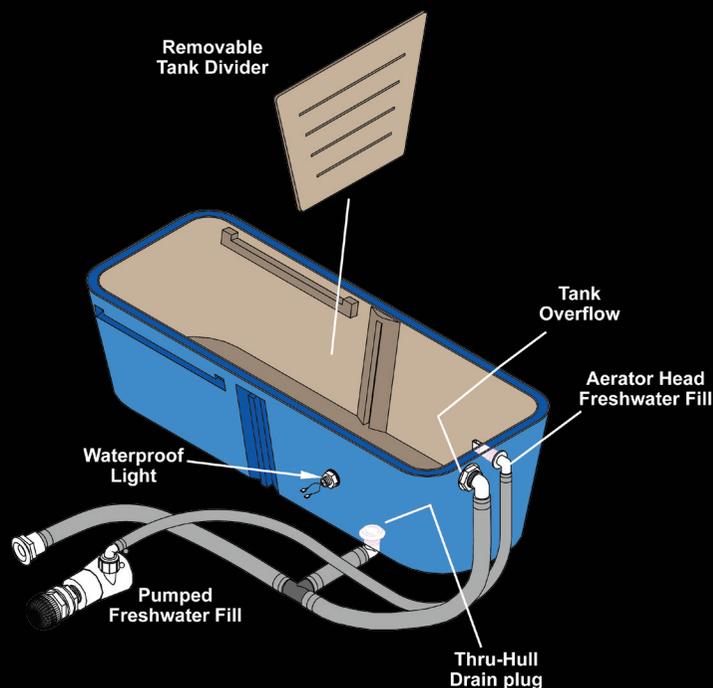

1. PROLONG PLUS The envy of the industry and the most technologically advanced system to ever hit the water, the ProLong Plus is designed with a freshwater pickup integrated into the bottom of the hull, where it forces a steady flow of water into the livewell while the boat is running.

2. PROLONG This two-pump design keeps water fresher and fish calmer than any other in the industry. One pump fills and aerates the well from above the fish, while the other recirculates and injects fresh air via the Max-Air system for maximum oxygenation.

3. AERATED Lund's high-quality aerated livewell features a single pump with a single-switch control. You also have the option of running the aerator pump continuously in manual mode, or intermittently in automatic mode when the model is equipped with a timer.

SPECIAL PACKAGES

- **CONVENIENCE PACKAGE** features a quick-release fender system, stainless steel flip-up cleats, an upgraded steering wheel and portable cupholder.
- **LUXURY PACKAGE** features a Captain's Chair, a stitched-brow upgrade to the helm, stainless steel cupholders, LED rope lighting at the seating base, a black acrylic table and a stainless steel boarding ladder.
- **SPORT PACKAGE** promotes improved buoyancy, speed and maneuverability for epic watersports adventures, thanks to the addition of a lowered center tube that creates a V-hull feel, lifting strakes on the inside of outer tubes, a reinforced nose cone, a full skin kit and a full keel.
- **PERFORMANCE PLUS** offers increased buoyancy, greater control, and improved speed, maneuverability and fuel capacity for a smoother, performance-forward ride. The package includes a 25-inch full-length lowered center tube, lifting strakes on all tubes, a reinforced nose cone, a skin kit, a full keel, an optional in-floor locker and a 37-gallon fuel tank.

Sport Package

Performance Plus Package

SportTrak™ ACCESSORIES SYSTEM

Attach a variety of accessories like rod holders, cup holders and even electronics to your Lund without drilling holes in your boat. Heavy-duty SportTrak™ brackets mount securely along patented SportTrak™ gunnels so you can position gear just about anywhere. Available on Pro-V, Baron, Tye, Sport Angler, Explorer, Impact, Pro Guide, Rebel XL, Outfitter, Alaskan and Predator models.

Rod bracket (Sport Angler only)

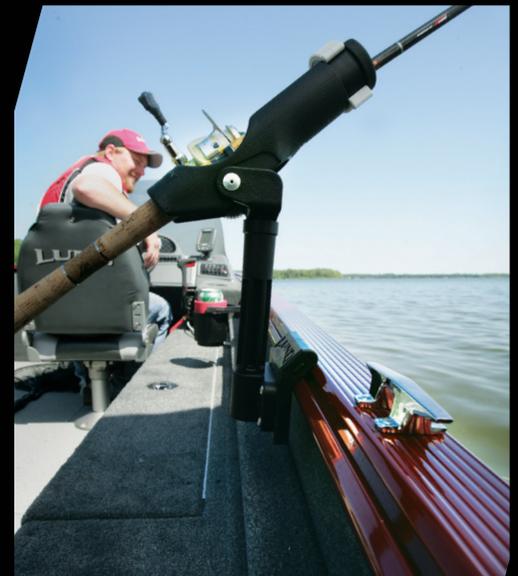

Downrigger bracket for angled SportTrak (available on most aluminum models)

Cupholders

Tool holder (tools included)

Rod holder w/ optional extension

Powerful Partners

Lund prides itself on delivering the most rugged and dependable boats in the fishing industry, so it's no surprise that Lund teams up with Mercury® Marine to provide the solid and efficient power to get you there and back. Mercury is an industry leader in four-stroke technology, and all of its engines run smoothly and responsively in any water conditions. Check out Mercury's latest and greatest offerings here, and for more information, visit www.mercurymarine.com.

MERCURY FOURSTROKE

Designed to deliver unsurpassed power and performance in an efficient, reliable package, the new FourStroke V-8 and V-6 outboards are the smallest and lightest in their class. They're engineered to go the distance and to make every adventure all it should be.

SPITFIRE PROPELLER

Mercury's FourStroke outboards have a partner in crime: the Spitfire propeller. Four bold and uncompromising blades with high rake angles and extra cup give Mercury's FourStrokes greater acceleration without compromising top speed.

150 FOURSTROKE

The 150 FourStroke is the lightest, most versatile and most durable outboard in its power class. Its remarkably low maintenance and top-of-the-line fuel efficiency allow fishermen (and their families) to spend more time out on the water. Sleek and reliable, the 150 FourStroke has everything you need.

Lund Gear

WEAR WITH PRIDE

You wouldn't be caught in any boat but a Lund while fishing your favorite waters. Now you can further look the part of a hardcore angler, thanks to Lund's extensive line of apparel. Men, women and children can sport clothing with a range of Lund logos from past to present, plus hats for sun protection. Show your Lund pride along with the pros by visiting lundboats.com and clicking on Gear.

BOATING'S BEST LIFETIME WARRANTY

Lund's Lifetime Limited Warranty gives you the best overall coverage available. From bow to stern, gunwale to gunwale, your new Lund is backed with a transferable* warranty—and Lund's promise that we'll make sure any claims are handled with speed, ease and our full support.

It's because Lund boats are built so well that we can afford to give you this superior warranty. We don't think you'll need it; we have that much confidence in our boats. But if you do need warranty support, you can be sure you'll have the very best in the industry.

- Lifetime Warranty on double-riveted seams (Aluminum)
- Lifetime Warranty on all plywood panels, related materials and labor (Aluminum)
- Lifetime Warranty against structural hull defects (Fiberglass)
- Three-Year 100 Percent Bow-to-Stern Parts and Labor, some exclusions apply—ask your Lund dealer for details
- Transferable*

Lund's Three-Year Material and Workmanship Warranty is transferable*—ask your Lund dealer for details.

See dealer for full warranty details; standard exclusions apply.

*Lifetime warranty on double-riveted seams, plywood panel, and structural fiberglass hull are non-transferable. Second owner receives 10-year pro-rated warranty.

HIGHER STANDARDS

Every Lund boat is built to meet or exceed rigorous NMMA certification standards and Coast Guard regulations. But first, every Lund must pass the toughest test of all—our own standards for quality and craftsmanship.

RESALE VALUE

When you buy a Lund boat, you become part of the Lund family and part of our tradition of excellence. When it comes time to sell your Lund boat, your investment in Lund quality will be rewarded.

LUND DEALERS

Because we build the best boats on the water, we can afford to be selective with who sells them. When you see the Lund sign hanging in the window, you know the dealer inside meets Lund's strict standards for customer satisfaction. Stop by any of our dealers, and you'll see why they've earned the right to carry the Lund line.

LUND PROFESSIONALS

Without the dedicated efforts of the people at Lund who build our boats and the professional anglers who help design them, the Lund tradition of excellence would not be possible. Thank you.

NOTES

Some photos of Lund boats in this catalog show factory and/or dealer installed options. Photographs are taken under controlled conditions. Colors are subject to printing limitations and are approximations only.

Because Lund is dedicated to constant product improvements, the specifications, options, color selections and model availabilities of our boats are subject to change without notification.
