"66 Years of Boat Building Skill"

Shell Lake Boat Company was established in 1904, and produced sailboats, launches and other boating products which became well known standards of quality and performance. Shell Lake continued in their fine tradition of wooden strip boats until 1954 when the Company pioneered the development of fiberglass boats. Through continuing research and new manufacturing methods, Shell Lake has remained in the forefront of quality fiberglass boat construction.

Before you buy a fiberglass boat, check out Shell Lake's line of traditional quality.

WARRANTY

We warrant each new fiberglass hull and deck to be free from defects in workmanship and material under normal recommended use for a period of two years from date of delivery to original purchaser. See your Shell Lake dealer for full written warranty.
