LUND BOAT COMPANY

HIGHER STANDARDS
Every Lund Boat is built to meet or exceed rigorous NMMA (National Marine Manufacturers Association) and Coast Guard regulations. But, no Lund must pass the toughest test of all — our own standards for quality and craftsmanship.

INDUSTRY LEADING WARRANTY
Lund Boats warrants to the first retail purchaser of a 2004 model year boat from an authorized Lund dealer that Lund will repair or replace defects in material or workmanship, subject to coverage guidelines. If a structural defect in material or workmanship is discovered in a double-layered deck, welded main hull seams, or in a vibration floor or deck at any time, while owned by the original purchaser, Lund will repair or replace, at our option, any part found by Lund to be defective. If a defect is in any other part of the hull or deck is discovered within ten (10) years after date of purchase, Lund will participate in the repair of this part of the boat found by Lund to be defective according to Lund's payment schedule. See your Lund dealer for complete details.

RESALE VALUE
When you buy a Lund boat, you become part of the Lund family and part of our tradition of excellence. When it comes time to sell your Lund boat, your investment in Lund quality will be rewarded.

LUND DEALERS
Because we build the best boats on earth, we can afford to be selective with who sells them. When you see the Lund sign ringing in the wind, you know the dealer inside meets Lund's strict standards for customer satisfaction. Skip by any of our dealers and you'll see why they've earned the right to carry the Lund line.

LUND PROFESSIONALS
Without the dedicated efforts of the people at Lund who build our boats and the professionals who help design them, the Lund tradition of excellence would not be possible. Thank you.

NOTE:
Some photos of Lund boats in this catalog show factory or dealer installed options. Photographs are taken under controlled conditions. Colors are subject to printing limitations and are approximations only.

Because Lund is dedicated to constant product improvement, the specifications, options, color selections, and model availability of our boats are subject to change without notice.

ITS® models are licensed under U.S. Patent number 5,108,021.

This may be the best time ever to buy a Lund boat. As investments go, just look at our unmatched lifetime limited warranty and resale value for verification that your new Lund will retain its value. And as for a return on investment, your new Lund will generate a treasure chest of memories, and it's hard to put a price on that. This is also a great time because our 2004 models are performing at unprecedented levels, thanks in large part to our integrated Power Stroker™ hulls, IPS 2x Drive, and RS alone turn your investment into a big winner. As always, we encourage you to carefully compare Lund to any other boat. You may save a little buying a lesser boat today, but – any Lund owner can tell you – buying a Lund boat will reward you with more great times on the water and more return on every dollar.

**INDUSTRY LEADING LIFETIME LIMITED WARRANTY**

Your 2004 Model Year Lund boat is backed by the premier warranty in the industry, including provisions for repairing or replacing defects in material and workmanship in double-hulled boats and wooden floorboards or decks while still owned by the original purchaser. When you talk to other dealers about other boat warranties, be sure they're making direct comparisons because warranty language can be confusing. Your Lund dealer will tell you all about our unmatched Lifetime Limited Warranty so that you can clearly see what it means to you. It's also a good idea to talk to Lund owners so that you can see that we stand behind our boats like no other company. We believe we make the best boats – and that's why we can afford to offer the best warranty.

**Industry Leading Resale Value**

Lund boats have long been famous for holding their value better than any other boat you can buy. So if you're ever ready to upgrade to another Lund, you'll find that your current Lund is a valuable commodity that will sell you more on trade or at retail than any other boat. Take a close look at our construction processes and pick up on why...

**NEW MODELS FOR 2004**

These new Lundas draw upon more than a half century of boat-building expertise and advanced technology to be the best boats in their class. You can find complete features and specifications for each model on the pages shown in these photos.

TRUST THE ALUMINUM AUTHORITY

Howard Lund knew that aluminum was the optimal boat-building material when he founded the Lund Boat Company in 1948, but it wasn’t until decades later that technology caught the aluminum advantage. Testing shows that aluminum is lighter, stronger, easier to drive, easier to maintain, more durable, less expensive, and offers better handling than other aluminum hull building materials. All of our boats are built with aluminum. What sets Lund apart is our ability to get more out of the material. We build our boats to a different standard, with fiberglass and double-molding and sophisticated twin-plating. So as you compare boats, do yourself a favor and make sure you’re comparing boats of the same class with same-class features.

COMPARE OTHER BOATS. LISTEN TO OTHER OPINIONS. JUST MAKE SURE YOU KNOW THE FACTS BEFORE YOU BUY A BOAT.

MYTH
Machine-formed ribs are as strong as I-beams
Machine-formed ribs are better suited to molded hulls
Two-plating should extend the entire length of the boat
There are fastening methods equal to riveting
There are boat-building materials equal to aluminum

TRUTH
By any measure, ribs lack the rigidity and cannot endure the same level of pounding as an I-beam
Shapeways and smaller structures built with I-beams come in all shapes and sizes. I-beams provide the internal backbone that has no bearing on the shape of the vessel
Lund twin-plots its boats from bow to midship because that’s where the boat absorbs all the pounding
Twice-plating below the waterline adds unnecessary extra weight that will decrease overall performance
Excessive boat-plating also adds significant extra cost for a feature you absolutely do not want
Fully twice-plated hulls should be avoided
Airplanes demand the most dependable fastening methods, and they use rivets. Riveting remains the most reliable fastening method known for high-stress applications
Lund uses aluminum because it is lighter and more durable than other materials. Aluminum’s high strength-to-weight ratio offers easier towing and more capacity. Aluminum is also more economical, and it requires less maintenance. Lund was among the early pioneers of aluminum utilization, and we continue to lead the industry in maximizing its effectiveness.

IPS simplifies your boat-buying decision
Since we introduced IPS just five years ago, boat owners everywhere have been trying to copy Lund’s Integrated Power Stateroom performance. Why? IPS has proven an exceptional feat that is making it a hot name and asking other boatmakers if they have anything like it.
They don’t. Building a genuine IPS hull requires costly technology and an unwieldiness to shore costs. It also means driving performance. A flat spot on the bottom of the hull isn’t IPS technology.

IPS integrates and optimizes the benefits of three hull components: the power stateroom, the reverse chine, and the footplate. It’s the way those three components work together that creates a level of performance that is greater than the sum of its parts.
IPS is the next generation of IPS performance. With its deeper V and additional strake, IPS 2 actually eliminates space, creating an even smoother, softer, drier ride, and a flatter wake for watersports.

The IPS effect on overall performance is dramatic. More MPFI increases horsepow...
NEW PRO-V ENHANCEMENTS

All Pro-V models now come standard with Lund’s industry-leading IPS 2 Hull. For 2004, we’ve added even more of the smart, functional features that keep Pro-V’s at the forefront. A wide beam for a safer ride, 2 High-Vis battery condition gauges, Easy-friendly folding tilting pedal rails, large cup holders, and LED gauges.

Don: "Best control is everything and that’s where Lund boats shine. They talk to the water and don’t get pushed around. So while other guys are struggling, I’m fishing." - Don Son, Chicago's Angling Edge.

“New Pro-V 3 xchq 3.3caq 18 Amp is may”

WHY MORE TOURNAMENT PROS PREFER LUND BOATS

Lund Pro-V’s are loaded with the biggest and best features in fishing. But first and foremost, they’re designed to increase efficiency, and that’s what serious pros want in their tournament boats, because that’s what saves productivity.

For years, Lund Pro-V’s have been the boat of choice for more In-Fisherman Professional Walleye Trail winners than any other boat. Along with our dealers, we are also proud to sponsor many other local, regional, and national events across North America, including these:

- Angler’s Choice Walleye Championship
- Florida Keys Walleye Classic
- Michigan Walleye Tour & Montomery Walleye Classic
- Missouri Walleye Classic
- Nebraska Walleye Classic
- Oregon Walleye Classic
- Saskatchewan Walleye Trail & Neponset Cup
- Walleye World Tournament & Whirlin’"
Lund and Rapala Team to Help You Catch More Fish

These two legendary brands have formed a new kind of fishing alliance with one mission—to help serious anglers create their own ultimate fishing rigs. Soon you’ll have choices beyond motors and electronics. You’ll be able to outfit your boat with the perfect equipment for the way you fish—with custom rods, reels, lures, and more. This special edition Lund/Rapala boat will also have its own unique graphics package. Look for more information and upcoming Lund/Rapala sweepstakes promotions.

Genmar FirstMate™

Genmar FirstMate™—available on most Lund 2004 models—ensures that your boating days are hassle-free with fast access to live information and assistance 24/7/365. For complete details on the Genmar FirstMate™ program, please visit us at www.genmarfirstmate.com

SIRIUS

SPORT & FISH SERIES

BARON • TYEE
BIG DREAMS CAN COME TRUE.

Imagine, for a moment, life in a new 2150 Baron Magnum. Twenty-two feet of strong, spacious, luxurious comfort all around - and a rocket-like Lund IPS 2 2 hull underneath. It's the ultimate in high-speed performance, enhanced here with the smooth, fast, clean power of a MerCruiser Octane 4. And it's a dream big enough to satisfy the entire family with a never-ending supply of the good times.
UPGRADE YOUR WAY OF LIFE.

You'll find that life on the water is better in a Tyee. You'll enjoy more comfort and amenities with fewer problems. More spaciousness and stability without losing high-performance. Superior handling and better skid action, in part, to the IPS 2 hull with its faster incline, wider turning, and deeper water ride. And you'll experience more good times with fewer of the hardships that can ruin a good thing. Rent up the new Mercury and go see for yourself.

"You'll never own a more stable boat. No matter where you stand in the boat and feel great IPS stable. No rocking. No toppling. Just confidence."

Bob Oshu
Bob Oshu's Rock Fishing

1950 Tyee 155

1950 Tyee Outboard

1950 Tyee Outboard models make the most of the IPS 2 hull and control, sold as a 15-foot Baywatch or an 18-foot Tyee. The IPS 2 hull has a mild incline, wider turning, and deeper water ride. And the IPS 2 Hull enhances versatility with top, converts to a fold-down seat that quickly connects to a large casting platform.

River Casting Platform (all models)
TIME TO INVEST IN A LIFETIME OF MEMORIES.

It's hard to put a price on all the fun you'll have in a new 1850 Tyee. Easy tractability means you can be on the water fast. And once you're there, the feeling that this boat gives you is what makes the whole experience so enjoyable. It's the perfect boat for a day out on the lake, or even a longer trip. It's a Mercury Outboard, with the reliability and power you've come to expect. With the right options, it's the perfect boat for you.

1850 Tyee

- IPS 2 is the newest generation of Lund's revolutionary IPS (Integrated Power System) technology. The new design, with its deeper Y and wider stroke, helps deliver even more power for the smooth and silent ride you desire. The IPS 2 also offers faster hole shot, and keeps you on planes with amazing speed and efficiency. It makes it easier than ever to handle big, heavy, high-performance motors.
- Optional Pro-Trim cockpit cover (Bass, Tuna, and Pro-Y models)
- Custom Pro-Control console
- On-board battery charger (optional on all Bass, Tuna, and Pro-Y models)
- Shown with optional spray deck.

Mark Martin, PWT Champion

"Thank goodness for Lund Pro-Line seats. The contoured design fits the body in a way that gives you better support and more comfort."

1850 Tyee IPS 2

Lund IPS 2 is the first out-of-the-box IPS system to offer you total control of your boat's thrust. With the addition of the IPS 2, you're able to control your boat's speed and direction with precision to enjoy every moment on the water.
THE BIG INTIMIDATOR ON THE TOURNAMENT TRAIL

Test the tournament circuit and you’ll see avid bass fishermen eyeing up the 2025 Pro-V. The all-new boat takes the tournament-competitive advantages from bow to stern, with superior handling, exceptional comfort and big-bait tournament features all the way. With an advanced Yamaha engine on board for the kind of big, powerful performance that keeps you on the winning side of the competition.
TRY FISHING FROM A NEW PERSPECTIVE

Fishing can set you up to keep the advances of fishing from a higher level. It's something you'll have to experience for yourself. Beyond the obvious benefits—quick and efficient, and the ability to move faster and farther, without the need for a lot of gear—you'll find the difference more than just a boost in morale and productivity. Make even more of the available fishing experience with our Mercury Pro-V models.
FEED YOUR OBSESSION.

Some things are worth being crazy about. Like your spouse, your kids, and your boat — and not necessarily in that order. If you need a fishing buddy that can hit the water fast, then let us introduce you to the 1800 Pro-V with its new IFS™ 3-blade. It has everything you need for serious fishing, especially when you add a new, technologically advanced Yamaha outboard motor.

1775 PRO-V

**Champion Among Champions.**

Once again the 1775 retains its title as the best-selling Lund Pro-V and you don’t have to look far to see why. You can easily trailer it anywhere, launch it quickly, and run like a torpedo to that special spot without a lot of prep. And once you’re fishing, you’ll have big, smart features everywhere, plus easy maneuverability enhanced with a new IPS 2 Hull. And for even enhanced performance, add the championship power of a new Mercury outboard.

**1775 PRO-V SE**

One reason the 1750 Pro-V remains the number one 17-foot boat: It’s so versatile, you can add all sorts of options. The 1775 Pro-V SE moves in its increased speed and no-feedback 9” steering, making it easy to maneuver whether you’re running full throttle or slowly making your way to the next spot.
THE HISTORY OF FISHING, CHAPTER ONE.

The Mr. Pike design is the model for today’s most advanced fishing boats. This unique layout, first introduced nearly thirty years ago, emphasizes flexibility, functionality, and comfort. The result is a hull shape that offers the ideal blend of maneuverability and durability. That’s just the beginning of what makes today’s advanced boat and motor technology, plus a Yamaha outboard to its truly outstanding fishing features.

The Original Mr. Pike, first launched in the mid-1970’s, introduced the easy fishing concept that has since revolutionized fishing boats design. Modern, functional, and innovative, open floor boats were all inspired by the Mr. Pike Original. Our new models are a direct result of our ongoing development to keep it simple and functional - the Mr. Pike hull! - and today’s most advanced fishing features.
FAMILY BONDING IN THREE EASY STEPS.

Get everyone together, get in your new Pro Angler, and hit the water. With the Pro Angler the good times are always at hand, thanks to fast, easy transportability and a family-friendly layout that makes everybody comfortable. The boat is built for fun, with an extra-wide transom and a high-performance IPS hull. And if you want the good times to keep on going, give your Pro Angler industry-leading Yamaha power.

BIG VALUE MEETS BIG VERSATILITY.

Fisherman models give you multi-functional Lund performance at a special price. For families that means more comfortable options on the water, and for serious anglers that means more of the fishing features that set Lund apart. And everybody appreciates the superior performance of the world-renowned Lund IPS hull, enhanced in this model with the high-powered technology of Mercury Marine.

1800 Fisherman YT5

200 Fisherman No Top

Multi-purpose performance is what makes Fisherman and Pro Sport models such popular boats. Available in a classic, Bow-facing layout or Lund’s revolutionary IPS “splitcock” design, these boats are built on an IPS hull for high-performance efficiency. Watchless tiller, laterally adjustable steering, and when tilted down, the seats quickly convert to a large Rodlock with lots of room to cast and light tackle.

1700 Fisherman OBS

Large lockable storage with tube (all Fisherman models)

Fully adjustable transom seat (Fisherman OB)

Multi-ply floorboards (all Fisherman models)

Aluminum and extra tube (Fisherman OB)

Wheels and storage with tube (all Fisherman models)

Multi-point transom seat (all Fisherman models)

PRO SPORT OWNERS KNOW WHAT THEY WANT.

The Lund Pro Sport has developed a loyal following — some might call it a cult — of people looking for fast, multi-craft performance in a strong, simple design. Pro Sport's smart, obvious layout is perfect for people who want to fish, fish, fish, which seems to mean working the fish, working the fish, working the fish. The boat's high-powered performance of the IPS hull, optimized here with a technologically advanced Yamaha outboard motor, will give any boater everything they need to enjoy a day on the water.

Everybody loves how the IPS (Integrated Power System) set-up feels out on the water. Now you can pick up your seats whenever you need comfort and they are easy to control.

GRAB THE FAMILY AND START EXPLORING.

The big 1800 Explorer has plenty of room and comfort for everyone. The wider beam and IPS hull create a more stable boat that is also faster and smoother running which makes everybody's day more enjoyable. You'll also find plenty of Lund habits, starting with Lund's new Dual Tackle gunwale system (see next page). And for a final touch, add the trusted power of an Evinrude outboard.

1800 EXPLORER

1800 Explorer Tiller

Lund has pioneered forward design, and the 1800 Explorer is a good example of innovative Lund technology. The hull is highly efficient, so you enjoy easy, natural motions that reduce fatigue. And the balance design and IPS hull work together to give a higher level of stability and control; the essence of successful fishing.

FOUR NEW WAYS TO EXPLORE THE GOOD LIFE

These new Explorers give you plenty of options to find a boat that best suits you.

Each is built on a high-performance IPS hull for a flatter, higher, safer, dryer ride.

Both the SS console and tiller models are built to endure rough water conditions and easy to operate with the pinnacle of outboard technology.

Premium captain's chair (all Explorer models)

Low casting platform (all Explorer models)

Spacious rear storage (all Explorer models)
THE CLASS OF THE CLASS – NOW WITH IPS

The 1650 is the first Rebel built on a genuine Lund IPS hull for a level of performance never before available in this class. Loaded with classic Lund reliability, these Rebels are destined for greatness. Add the power and technological advantage of a Yamaha outboard and get going.
MODIFIED FOR MORE VERSATILITY.

Lund Bass Boats make the most out of the superior qualities of aluminum. They’re lighter and more durable than fiberglass and, with their modified V-hull, they’re as well suited to deep, windward lakes as they are to shallow runways. And they have classic fishing features that improve productivity on any water.
GREAT CHOICES FOR EVERY PURPOSE.

Lund all-vinyl Jon boats are available in a wide selection of sizes and styles to suit your specific needs. Check out all the models on the next page and you’ll find plenty of options to help you select the perfect Jon boat. If you need assistance, please see your Lund dealer for more information.
Lund's Legendary ProLong Livewells — fresh thinking for healthier fish.

Lund's unique ProLong Livewells have long been the industry standard because they keep fish alive and healthy longer. In other livewells, operation occurs high in the tank, causing surface spray where fish gather and increase their risk of injury. Lund solves the problem by sending air from the bottom, which circulates oxygen evenly throughout the livewell and keeps fish passive. This design also includes a recirculated screen that prevents escape, and we've made our aerator pump and bilge pump controls, which are ideal for your convenience.

An intake valve pulls oxygen into water as it flows and mixes it.

In other installations, air is introduced into the livewell and disperses throughout the tank.

ProCam plasma console

ProCam plasma control

Bow and fish plug-in

Wide spread storage

Easy access battery storage

ProPlon fuel reserve system

Cargo nets

TILLER MODELS vs CONSOLE MODELS

Both are great fishing boats — but which makes most sense for you?

Tiller models offer greater boat and water response:

- Instant steering change
- Direct operation

Console models offer more power and are easier to run:

- Higher HP for optional speed
- Deeper transom
- Less air and boil damage

Both models have the same features:

- 5.6
- 5.7
- 6.5
- 7.4
- 8.1
- 9.9

Easy-clip-on floorboards — optional on most models

Cockpit covers — optional on all models

On-board battery charger — optional on most models

On-board heat/air conditioning — optional on most models

On-board camera — optional on most models

Rocker switch — optional on Pro-V and Pro-V 18.17 models

Cockpit cup holder — optional on most models

Pro-V only — optional on 2021 and 2020 models
## FISHINGMASTERS - SPECIFICATIONS
