Everyone is a part of the success

Every Lund boat is a feat of engineering that, in addition to Lund designers and employees, every Lund customer can take pride in, too. That’s because the whole Lund family is a part of Lund’s success as the best fishing boat out there.

We listen closely to the needs of fishermen and boaters. Your feedback goes directly into making sure our boats run better and deliver more productivity than anything else on the water. Plus, many of our engineers and designers are anglers themselves. They bring their own valuable experiences and incredible insights to their jobs. To top it off they work closely with Lund's Pro Staff, sponsored anglers who make their living fishing on Lunds. You can bet they do everything they can to ensure Lund boats provide an edge. Lund basically invented the modern fishing boat, and it is with everyone's help that the company forges ahead as the chief innovator in the industry. Thank you for your support.

BUILT TO OUTFISH AND OUTLIVE ANY OTHER BOAT ON THE WATER

Lund boats are double-riveted—just like airplanes, which are subjected to more stress than a weld can bear. You know a Lund won’t lose its structural integrity or its unique fishability over the years and therefore it will retain its resale value. You’ll get more for your hard-earned dollar when you buy a Lund.

- Strong and rigid I-beam construction endures the kind of constant pounding that can break up lesser boats.
- Heavy-duty transoms, bolted directly to the longitudinal I-beams and knee-braced for strength and stability, support today’s most powerful engines.
- Lunds are built with the industry’s toughest hardware, soundest engineering methods and exceptional fit and finish.
- High levels of flotation foam meet United States Coast Guard regulations and give your family a quieter ride and extra peace of mind.
- High-performance, automotive-quality marine painting system produces a finish resistant to chipping, peeling and cracking.

Aluminum Authority, Aluminum Advantage
Lund builds stronger vessels without adding extra weight and streamlines designs without jeopardizing the craft’s integrity. No other boats are designed and built so well and no other boat by class can compete with Lund head to head. Aluminum is a lighter and more durable material that is more economical and requires less maintenance. Its high strength-to-weight ratio offers more capacity. Aluminum is easier to handle and more fuel efficient on the road and on the water. No boat builder understands aluminum quite like Lund.
FASTER, HIGHER, SMOOTHER, DRIER

Lund's exclusive IPS™ hull operates with better efficiency and performance than any other fishing boat.

The IPS™ hull delivers a solid flow of water to the propeller, reducing draft and keeping you on plane. Lund IPS is the perfect integration and optimization of the power stroke, the reverse chine and the footprint. The unique design ensures your Lund is always operating at peak performance levels, whether running full throttle or trolling. That saves on gas over the course of a day of fishing, a year of fishing or as long as you own your Lund.

In addition to higher efficiency, you'll reap the benefits of less motor strain, improved holeshot, better overall boat control, increased stability at planing speeds and in turns, better backtrolling, superior drift control and boat positioning, substantial mph and an overall drier and smoother ride.

The IPS™ 2 hull has a deeper V and additional strakes to help drive down spray and create a smoother, drier ride with a flatter wake. The original IPS™ is built with a wider, longer central power stroke. It feeds the propeller non-turbulent water for unmatched performance.

TILLER COMMAND CONSOLE

A rear portside station delivers complete comfort and control on Lund's tiller models. With electronics, gauges and accessories in proximity to Mercury's Big Tiller Handle, you'll run up river or backtroll with absolute ease whether solo or with a whole crew onboard. With customized info in one convenient place, it's provey handy for our northern guides who have to multitask by maneuvering the boat and sharing their expertise at the same time.
**A JOB WELL DONE**

Lund's pioneering work with livewells keeps your catch healthier and less prone to stress.

---

**PROLONG PLUS LIVEWELLS**

The envy of the industry and the most technologically advanced system to ever hit the water, the ProLong Plus is designed with a freshwater pickup integrated into the bottom of the hull where it forces a steady flow of water into the livewell while the boat is running.

---

**PROLONG LIVEWELLS**

This two-pump design keeps water fresher and fish calmer than any other in the industry. One pump fills and aerates the well from above the fish, while the other recirculates and injects fresh air via the Max-Air system for maximum oxygenation.

---

**AERATED LIVEWELLS**

Lund's high-quality aerated livewell features a single pump with a single-switch control. You also have the option of running the aerator pump continuously in manual mode, or intermittently in automatic mode when the model is equipped with a timer.
MERCURY DELIVERS
Power, experience, reliability and value come standard with your Lund

PURE POWER AND PERFORMANCE
The world's best-built fishing boats are backed by the world's best-built engine. Lund partnered with Mercury Marine to provide fishermen with the ultimate investment in boating. Mercury technology combined with quality Lund engineering brings you durable, reliable performance put on the water, whether running to the next spot, trolling for walleye or giving the kids turns on the wakeboard.

Mercury produces the finest of both four-stroke and direct-injected two-stroke technology. Mercury's four-strokes provide the responsive, reliable, smooth-running power you need in almost any condition, while Mercury's direct-injected two-strokes offer best-in-class fuel economy, incredible value, and unbeatable performance with amazing acceleration and top speeds. Visit www.mercurymarine.com.

SILENCE IS GOLDEN
The Mercury FourStroke Verado, the most advanced propulsion system out there, delivers the quietest, smoothest ride ever produced by an outboard—not to mention jaw-dropping power and acceleration.

MIXED WITH MERCURY RACING
One of the strongest direct-injected engines in the industry, Mercury's OptMax 115 ProXS blows away competition when it comes to power, durability and fuel efficiency.

BIG TILLER, BIG COMFORT
The power steering of Mercury's Big Tiller handle eliminates the torque and stress needed to steer a tiller-controlled boat. Add to that the easy-to-access shift arm and throttle controls, and the Big Tiller adds up to big convenience. Big Tiller can be used on all outboards ranging from 75-hp to 250-hp.

TECHNOLOGY WITH BRAINS
Mercury SmartCraft gauges provide precise, easy-to-read performance data directly from your engine. Plus, SmartCraft Digital Throttle and Shift (DTS) offers smooth, precise shifting, torque-free steering and an automotive-like driving experience.
Sometimes you've got to break the rules. Lund did just that with its Rebel Series by packing in more boat and fishability for your hard-earned dollar. Wide beams provide plenty of room for the whole crew to fish. Storage compartments contain all the gear. And optimal standard features like Lund's advanced livewell and SportTrak™ accessories system offer serious convenience. The confident combination of proven Mercury power, the Rebel Series' incredible ease of handling and fishing performance, and Lund's reputable quality and superior engineering let absolutely nothing get in the way of your day out on the lake. In creating the Rebel Series, the only rule Lund followed is one written by the company itself: and that is to provide the best, most solid boat possible, a boat a fisherman can trust.

Livewells, rod lockers and casting decks are just some of the features running bow to stern that make these boats Rebels with a cause.

Feed the rebel within, with a boat that gets you and your family out there for walleye, pike, crappie, you name it.
shown
1825 REBEL XL SPORT
The Rebel XL Sport gets on plane quickly and maneuvers with incredible ease.

1825 REBEL XL SPORT
The combination of Lund quality, style and fishability in the Rebel XL Sport is hard to beat.

Tough comes in a lot of different sizes. That’s why Lund’s Sportsman Series features a variety of solidly engineered boats ranging from 16 to 20 feet in length. Every one of these models is built to outlast and outfish any comparable design. Big decks, big storage and Lund’s big capacity livewells mean big fishability, not to mention big convenience. Yet, great Lund value guarantees you’ll find the right boat model to suit your needs without the big price tag. Choose from models that feature hydraulic-assist steering or a wraparound windshield to keep the family comfortable. The versatile Sportsman Series boats are designed to handle choppy water yet still tuck into smaller fishing spots and slot into the garage after sunset, or whenever it is you or junior catches her limit.

Chock full of value and versatility, the Sportsman Series models are multi-purpose boats that handle it all and let you fish the way you want to.

WWW.LUNDBOATS.COM
Whether you like the glory of competition or you just want a professional boat that delivers the utmost in performance, Lund's Tournament Series has a winner for you. Fishability features are right where they should be and work like they should. Plus, everything has its place. A huge bow casting platform doubles as extensive storage with room for tackle trays. Large ProLong Plus livewells and a baitwell, huge in-deck rod lockers and Lund's revolutionary SportTrak™ accessories system are just some of the features that have made this boat a success, winning more than its share of walleye championships. The Tournament Series boats are incredibly stable in all kinds of conditions and are designed with a unique ability to stay on the fish.

Not only is Lund a respected name among professional anglers, but for 20-plus years, the Pro-V has earned a reputation all its own.

Just a day of fishing on a Pro-V makes you feel like you've taken home the tournament purse.

An old saying goes like this: “When the going gets tough, the tough go fishing.” But when the tough gets going out on the water, you’ll need a boat that can handle it. You’ll never regret buying a boat from Lund’s Sport & Fish Series. These models are top of the line with rock-solid engineering and superior quality. They can handle the abuse of day-after-day serious use. Plus, you’ll have tons of room, every fishing luxury at hand and plenty of comforts for the whole family. Whether it’s you and the crew getting going or the weather kicking up when you’re on the go, these built-tough models guarantee a productive day out on the water.

Deep cockpits, well-planned seating and sturdy gunwales provide the comfort and the necessities for your big water adventures.

Sport & Fish Series models are built to withstand the elements, but they have all the right features to be easy on the crew.
Shown
2150 BARON

Rarely is the word luxurious used to describe a fishing boat, but the smooth, dry ride of the Baron changes that.

2150 BARON SPECIFICATIONS

- Hull: IPS™ 2 Integrated Power Stroke™
- IPS™ 2 Chine: 87.5°
- Length: 21'10"
- Beam: 100"
- Transom: 25"

(Not all options available for all models; see your Lund dealer)
Nothing can take a beating quite like the boats in Lund’s Wilderness Series. And as far as durability goes, owners constantly attest to their absolute indestructibility and incredible versatility. Run them up on sandbars, bump them up against rocks...regardless of the abuse you put them through, they’ll get you home every time. Whether you’re off hunting, fishing or working, these boats are serious workhorses that will get you out on the water with confidence and at a real value. Northern lodge owners use the big and tough Alaskan and Outfitter models for guiding. Lund’s optional Wetlands design covers the interior and exterior of some Wilderness Series models in camouflage, making them the ultimate tool for hunters.

The Lund name is known for its quality and toughness, and it is in our utility boats this reputation runs widest and strongest.

Like a good hunting or fishing companion, these boats will never let you down.
The Alaskan DC is a hard-working boat no matter the task. Fishing, of course, is at the top of the to-do list; and this boat is a master in the wild.

1800 ALASKAN DC SPECIFICATIONS

Hull: IPS™ (Integrated Power Stroke™)  |  IPS™ Chine: 69.5'
Length: 18'9"  |  Beam: 83"  |  Transom: 20'

- 12'/24' bow optional (Tiller)
- 12'/24' aft optional (SSV, WD, A)

**NOT ALL OPTIONS AVAILABLE FOR ALL MODELS. SEE YOUR LUND DEALER**
No one does fishing boats quite like Lund, so you can bet that no one does a Jon boat quite like Lund, either. Each one is built with the same durability and dependability you've come to recognize in the Lund name. You'll find Lund's full line of Jon boats, ranging from 10 to 18 feet in length, can step up to any task, be it fishing, hunting or hauling gear. Only Lund's Jon boats provide the ultimate, sturdy and stable platform with a unique hull design that can get to where other boats can't. Fish an icy lake or take aim from the water.

Aside from their tough-as-nails structure, the greatest features about these boats are their no-hassle maintenance, portability and, of course, their easily storable sizes.

Lund's line of Jon boats gives you an incredible choice for getting out on the water at an incredible value.

All Lund Jon boats are powered by equally dependable Mercury motors.
JON BOATS

Don’t let the economical price fool you. This is high-quality construction that stands up to years of punishment. Pull it up onto rocky shores over and over again, load it up with gear, get it beyond dirty. It can take the punishment. Lund Jon boats are constructed with advanced marine-grade 5052 H34 alloy aluminum and are riveted for extra strength. They’re engineered with formed-in-keels and spray rails for additional durability, and formed transom corner caps for smoother edges. Whether you want to bow hunt, camp over the weekend or just get your work done, a built-to-last Lund Jon boat is the perfect choice.

1848 JON BOAT
A Jon boat is a perfect entry-level Lund that’s as hardcore as you, yet easy to own.
# Options & Accessories

## OP Sets
- High-quality materials, easy-to-use designs and attention to detail distinguish Lund top sets.
- Bimini top
- Complete top set

## Optional Decal Packages
- Lund's optional camouflage designs cover the interior and exterior surfaces for ultimate camouflage performance.
- Lund Wetlands® camouflage interior and exterior (available on Alaskan)
- Lund Fall Marsh color option (available on select models)

## Removable Console
- Removable driver's console
- Leave open for additional cockpit room
- Or replace with pedestal seat
- Bow rock guard

## Additional Features
- Tilt'n' trim (optional on Baron, Tyee, Pre-V Sport Angler)
- Ingmanale rod storage
- Fire extinguisher
- Onboard battery charger (optional on most models)
- Traction vinyl floor and snap-in carpet (optional on Baron, Tyee, Pre-V, Predator, Judge, Pro Sport, Explorer and Rebel)
- Washdown system (optional on select models)
- Kicker motor pro-rig with console control (optional on most models)
- Sony AM/FM CD Stereo with four speakers
**SPORTTRAK™ ACCESSORIES SYSTEM**

Attach a variety of accessories like rod holders, cup holders, and even electronics to your Lund without drilling holes in your boat. Heavy-duty SportTrak™ brackets mount securely along patented SportTrak™ gunwales so you can position gear just about anywhere. Available on Baron, Tyee, Pro-V, Pro Sport, Explorer, Rebel XL and all Outfitters.

![Multi-function tool kit](image)

![Cup holders](image)

![Downrigger bracket mount* (available on select models)](image)

![Rod bracket (Sport Angler only)](image)

---

**PATENTED PROTRAK™ BOAT COVERING SYSTEM**

Provides boating’s ultimate weather-tight fit. The unique ProTrak™ gunwale features a specially engineered channel tucked up and under the exterior gunwale to keep rain and weather out while it allows air to circulate. ProTrak™ covers attach to adjustable snaps thatrove along the channel to ensure a custom fit. Not available on Rebel, SSV, WC and A models.

HIGHER STANDARDS

Every Lund boat is built to meet or exceed rigorous NMMA certification standards and Coast Guard regulations. But first, every Lund must pass the toughest test of all—our own standards for quality and aftsmanship.

USESAL VALUE

When you buy a Lund boat, you become part of the Lund family and a part of our tradition of excellence. When it comes time to sell your Lund boat, your investment in Lund quality will be rewarded.

LUND DEALERS

Because we build the best boats on the water, we can afford to be selective with who sells them. When you see the Lund sign hanging in the window, you know the dealer inside meets Lund's strict standards for customer satisfaction. Stop by any of our dealers, and you'll see why they've earned the right to carry the Lund line.

LUND PROFESSIONALS

Thank the dedicated efforts of the people at Lund who build our boats and the professional anglers who help design them, the Lund brand of excellence would not be possible. Thank you.

NOTES

Some photos of Lund boats in this catalog show factory and/or dealer installed options. Photographs are taken under controlled conditions. Colors are subject to printing limitations and are approximations only.

Because Lund is dedicated to constant product improvements, the specifications, options, color selections and model availabilities of our boats are subject to change without notification.

ProTrak™ Cover Fastening System is patented
(Patent # 6,886,489)

Boat With Enhanced Access to Engine And Stern is patented (Patent # 6,935,266)

Boat With Recessed Shifter is patented (Patent # 6,971,328)

Accessory Mounting System for a boat is patent pending

SportTrak™ Accessory Mounting System for a boat is patented (Patent # 7,341,231)

SPECIAL THANKS

BOATING’S BEST LIFETIME WARRANTY

Lund’s Lifetime Limited Warranty on double-riveted seams and plywood panels gives you the best overall coverage available. From bow to stern, gunwale to gunwale, and from the bottom of the hull to the top of the windshied, your new Lund is backed with a transferable* warranty—and Lund’s promise that we’ll make sure any claims are handled with speed, ease, and our full support.

It’s because Lund boats are built so well that we can afford to give you this superior warranty. We don’t think you’ll need it; we have that much confidence in our boats. But if you do need warranty support, you can be sure you’ll have the very best in the industry.

- Lifetime Warranty on double-riveted seams
- Lifetime Warranty on all plywood panels, related materials, and labor
- Three-Year 100 Percent Bow-to-Stern Parts and Labor
- Coverage with applicable exclusions—ask your Lund dealer for details
- "Transferable*"

Lund’s Three-Year Material and Workmanship Warranty is transferable*—ask your Lund dealer for details.

"Double-riveted seam and plywood panel warranties are non-transferable. Second owner receives 10-year pro-rated warranty.

FEEL THE SPRAY
NOT THE SHOCK AND VIBRATION

Sperry introduces the revolutionary ASV Solution™. The first performance boat shoe specifically designed to dampen the effects of shock and vibration caused by wave pounding and hull vibration. ASV technology reduces shock forces by up to 40% via the mechanics of lower energy return and Sperry's Lateral Dispersion System™ to ensure a more comfortable day on the water.

A PASSION FOR THE SEA

To learn more about the ASV Collection, visit sperrytopsider.com/ASV
